**MBRB COVID-19 Policy**

MBRB places safety above all others in the matrix of decision-making. The safety of our hunters and the general public is the critical factor in delaying, postponing or cancelling a controlled hunt.

Although the immediate impacts have declined, COVID-19 continues to manifest itself in different mutations with different consequences. As such, MBRB will continue to work with our landowners to ensure that our practices and procedures align with their policies as well as any overriding mandates prescribed by federal or state health and government institutions. Should matters take a turn to a more serious form of pandemic again, hunters need to be aware that changes to hunts may occur at any time up to the start of the hunts, including cancellations. If the latter should occur, MBRB hunters will be refunded their enrollment fee for the season.
